

In-Home Unit

Provide Safety in your Home

- For In-Home Safety
- Wristband and Necklace Options
- Water Resistant

Providing comfort and reassurance is just a touch of a button away. Choose between a wearable wrist unit or necklace. A built-in speaker and microphone allows for clear two-way communication wherever you are.

FEATURE

Help Button

When you press the help button it will beep and state "Your emergency call being placed, please hold, an operator will be with you shortly." Then it will state "Stand by, connecting you to a care specialist" followed by beeps and a representative should pick up shortly.

Note: fall sensors do not detect 100% of falls. Clients should always be instructed to press the button for help if possible.
