PERS Dispatch Reporting Process

Connecting Clients to
Care Managers

PERS Solutions you
will be excited to
share with your
members!

Eyes and Ears in The Home

If a trigger event or critical incident has occurred, AMA sends real-time notifications directly to the care coordinator, and follows up with clients directly to ensure their lives are back on track and ensure their needs are being met.

No More Surprises

Have you ever been made aware of a client not telling you about a fall? AMA follows up with all clients and family members post PERS activation. We provide real time copy and paste, detailed incident reports.
